

New York State STEM Education Collaborative
[NYSSEC]
2021 STEM Education Summer Institute
July 26th to July 27th, 2021

A Call for Presenters and Poster Presenters

***“STEM 360 –
Growing STEM Opportunities in Changing Environments”***

To the Business Community:

The N.Y.S. STEM Education Collaborative, Inc. (www.nysstemeducation.org) and Alfred State-SUNY College of Technology will jointly present the 2021 STEM Education Summer Institute totally virtual. NYSSEC has successfully provided STEM institutes for eight years. The Covid-19 virus has caused the need for social distancing which is nearly impossible within on-site programs.

We bring in professors, teachers, and the business community to instruct Pre-K to 12 teachers how to integrate the four STEM subjects (science, technology, engineering and mathematics) in a hands-on, minds-on instructional approach. From the business community, we ask engineers, technicians, scientists, and medical people to present to educators about STEM careers and insights relating to practical STEM skills that are important to the success of all businesses.

We are announcing a **call for both successful virtual classroom presentations and poster presentations** for the 2021 STEM Summer Institute. The presentations can be one hour or two hours (hands on) in length. The posters will be displayed and presented during a one-hour poster session. Professional Development hours will be provided.

Important dates:

Presentation proposal submission deadline:	May 31, 2021
Notification to presenters & poster presenters' acceptance:	June 7, 2021
Presenters confirm their participation to NYSSEC	June 14, 2021
Presenters please register by this date.	June 30, 2021

Depending on the topic and Institute schedule, we may ask you to present a poster and/or presentation even though you proposed the opposite. Presenters' registration fees will be **50%** of regular attendees.

Topics:

The NYS STEM Education Collaborative promotes the inclusion of multiple STEM subject areas using integrated activities and instruction. We will also entertain presentations about virtual learning.

Format:

Title: Should have no more than 10 words
Abstract: Stay within a maximum of 120 words.

Submission:

Proposals should be submitted at: <https://forms.gle/5tV3Gq8Kn4KH9tKo6>.

Your abstract will also be included in the print and online programs for the institute. Conference programs and topics from our previous institutes can be found on our website.
